

Using LEARNZ videos

Published on LEARNZ (<http://learnz.org.nz>)

[Using LEARNZ videos](#) [1]

For each day of a LEARNZ field trip, curriculum-rich videos are shot, edited and uploaded overnight so your students can feel right up close to the action.

At [LEARNZ on Vimeo](#) [2], anyone can

- **watch** LEARNZ videos
- **share** LEARNZ videos on social media
- **embed** LEARNZ videos for replay on their own web site or Intranet.

Also, if you [Join Vimeo](#) [3] you can

- **follow** LEARNZ on Vimeo
- **message** LEARNZ on Vimeo
- **watch later**
- **add** to your own collections
- **like** individual LEARNZ videos on Vimeo.

[Exploring Shackleton's Hut](#) [4] from [LEARNZ](#) [2] on [Vimeo](#) [5].

LEARNZ videos are available:

- **currently** for playing/streaming/embedding **exclusively on Vimeo** (**enabled since 2016** for LEARNZ videos on Vimeo)
Note: Vimeo now has **adaptive streaming** which means video quality continuously alters with your Internet speed.
- for download or playing/streaming in mp4 format **and** alternatively for playing/streaming on **Vimeo** (**from 2013 to 2015**)
- for download or playing in **mp4** format (**from 2012 to 2015**)
- for download or playing in **wmv** format (**up until 2012**)

Most computers, tablets and smart phones will play LEARNZ videos **automatically** in their default browser or using their default video player.

If the videos don't play automatically, we recommend you download and install the latest appropriate software such as:

- **Quicktime 7** or better [here](#) [6] or
- **Windows Media Player** [here](#) [7]

Most desktops and laptops and other devices already have either or both of these

Using LEARNZ videos

installed but may not have the latest versions.

Before late 2015

1. To save the video file

- PC users - Internet Explorer **left-click** on a link and follow prompt to Save, for other browsers **right-click** on a link and "**Save Link As**"
- Mac users - hold down **Ctrl and click** on a link then "**Download Linked File**"

Once downloaded, **double-click** the file to play it **or** open your media player first, click **File...Open** and navigate to the file
